SCHOOL NURSE NEWS

Attention 6th Grade Parents

Dear Parent/Guardian of 6th grade student,

In order to minimize the spread of preventable illnesses and provide students with a healthier learning environment, the Board requires immunizations in compliance with the State law and the Ohio Department of Health for each student unless the parent(s) file an objection. Students failing to complete immunizations within 14 days after entering are not permitted in school.

The following immunizations are required for those entering 7th grade:

Tdap (tetanus, diphtheria and pertussis)

Meningococcal (Meningitis)

Please contact your health care provider/clinic to see if your child has received these vaccines. If so, please send a copy of the immunization record to school.

If not, please call the Seneca County Health Department at 419-447-3691 Ext. 333 to schedule an appointment. Immunization clinics are only on Thursdays, please call **NOW** to ensure an appointment that is convenient for you.

Please call Tiffin Middle School if you have any questions or concerns at 419-447-3358 and ask for the school nurse.

Thank you,

Denice Fleure BSN, RN
